

Species at Risk Funding Programs

Atlantic Funding Workshops March 15-18, 2011

Sheri Faulkner Jackson, Regional Coordinator
Habitat Stewardship Program for Species at Risk (HSP)

Presentation Outline

- Introduction to the Habitat Stewardship Program
- Applying to the Habitat Stewardship Program:
 - Program Guidelines
 - Program Priorities National and Regional
- Introduction to the Aboriginal Funds for Species at Risk
- Applying to the Aboriginal Funds for Species at Risk:
 - Program Guidelines
 - Program Priorities National and Regional
- Applying to HSP & AFSAR:
 - Process and Timelines

Presentation Outline

- Tips for Submitting a Successful Species at Risk Funding Proposal
- Conclusion
- Information Sources & Questions?

Habitat Stewardship Program for **Species at Risk**

Sheri Faulkner Jackson, Regional Coordinator - HSP

What is the Habitat Stewardship Program for Species at Risk?

A federal funding program that encourages habitat and species protection through partnerships, voluntary actions, and the cooperation of Canadians

Piping Plover

What is the goal of HSP?

To contribute to the recovery of endangered, threatened, and other species of concern, and to prevent other species from becoming a conservation concern, by engaging Canadians in conservation actions that benefit wildlife.

R Bicknell's Thrush Habitat

HSP is a national program that is:

Managed cooperatively by 3 federal departments:

- Environment Canada (EC)*
- Department of Fisheries and Oceans (DFO)
- Parks Canada Agency (PCA)
- * EC leads the administration of the program

Delivered through 5 Regional Implementation Boards

(RIBs) that include representatives from:

- Each of the 3 federal departments
- Each province/territory
- Others

Crab spiders on Plymouth Gentian.

HSP is a national program that is:

Assisted by Regional Coordinators from Environment Canada who support the Regional Implementation Boards (RIBs)

- Atlantic Region: Sheri Faulkner Jackson

"Directed" - projects are developed with partners in priority areas for priority Species at Risk

Dedicating \$9M-\$13M to stewardship projects each year

Issuing calls for proposals once per year (fall)

Expected Results:

- Secure, protect, or conserve important habitat to protect species at risk and support their recovery;
- Mitigate threats to species at risk caused by human activities; and
- Support the implementation of other priority activities in recovery strategies or action plans, where these are already in place or under development.

Applying to the Habitat Stewardship Program

Program Guidelines

Bicknell's Thrush

Who can apply? Almost everyone!

- Aboriginal, Provincial, and Municipal Governments and Provincial Crown Corporations
- NGO's, ENGO's, Educational Institutions, Community Groups
- Businesses and Corporations
- Individuals
- * Federal Departments, Agencies, and Crown Corporations are not eligible.

What do we fund?

- ✓ Habitat Protection*
- ✓ Habitat Improvement/Enhancement
- Human Impact Mitigation
- Planning and Coordination
- ✓ Surveys, Inventories and Monitoring*
- ✓ Outreach, Education and Technology Transfer*
- ✓ Project Evaluation

*Specific Conditions Apply

What do we fund?

- Activities MUST be linked to prescribed recovery actions identified in recovery strategies, action plans, and management plans.
- A minimum of 1:1 matching contributions from non-federal sources are required (more is better).
 (\$1 match from cash and/or in-kind for \$1 HSP).
- Project activities must do something above and beyond what is imposed or legally required (for example HSP will not fund a condition of a permit or license).

What we do NOT fund:

- X Research
- X Captive Breeding and/or Reintroductions
- X Development of Recovery Strategies, Action Plans, and/or Identification of Critical Habitat (as required under SARA)
- X Project activities on Federal Lands (National Parks, National Wildlife Areas, etc.)

Applying to the Habitat Stewardship Program

Program Priorities

North Atlantic Right Whale

Applying to HSP: National Priorities 2011-2012

For all Species at Risk (SAR) funding programs:

- Endangered and Threatened species as listed under the <u>Species at Risk Act (SARA);</u>
- Protection of "critical habitat" (as defined by SARA);
- Implementation of high priority activities in recovery strategies, action plans or management plans;
- Projects that implement, or contribute to the implementation of, geographically-based large scale and multi-species recovery initiatives;
- Initiatives that involve collaboration among multiple stakeholders/partners.

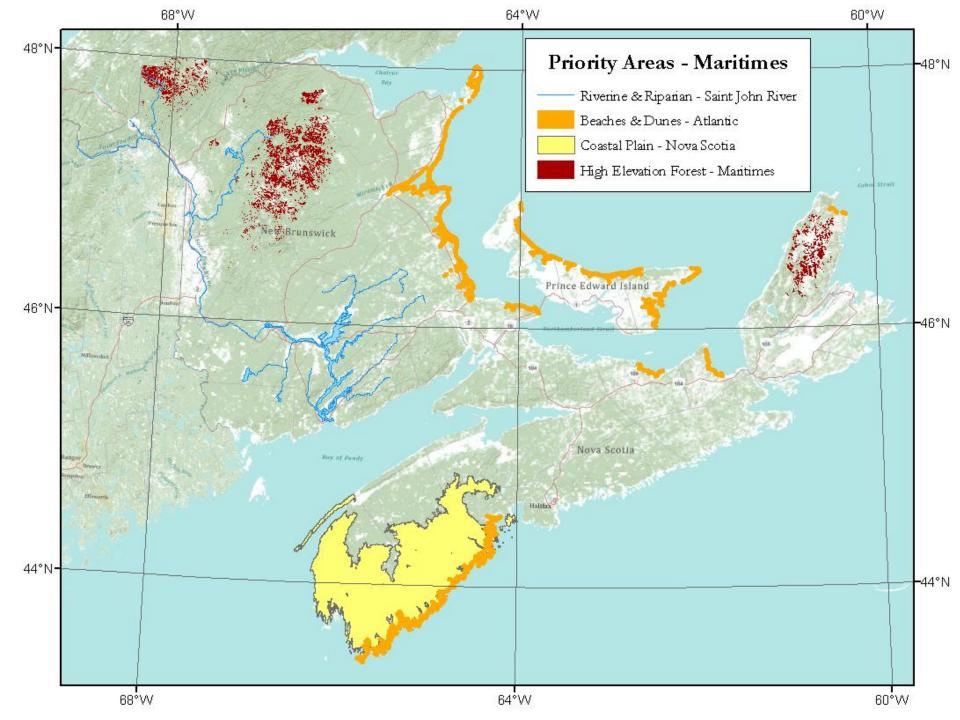

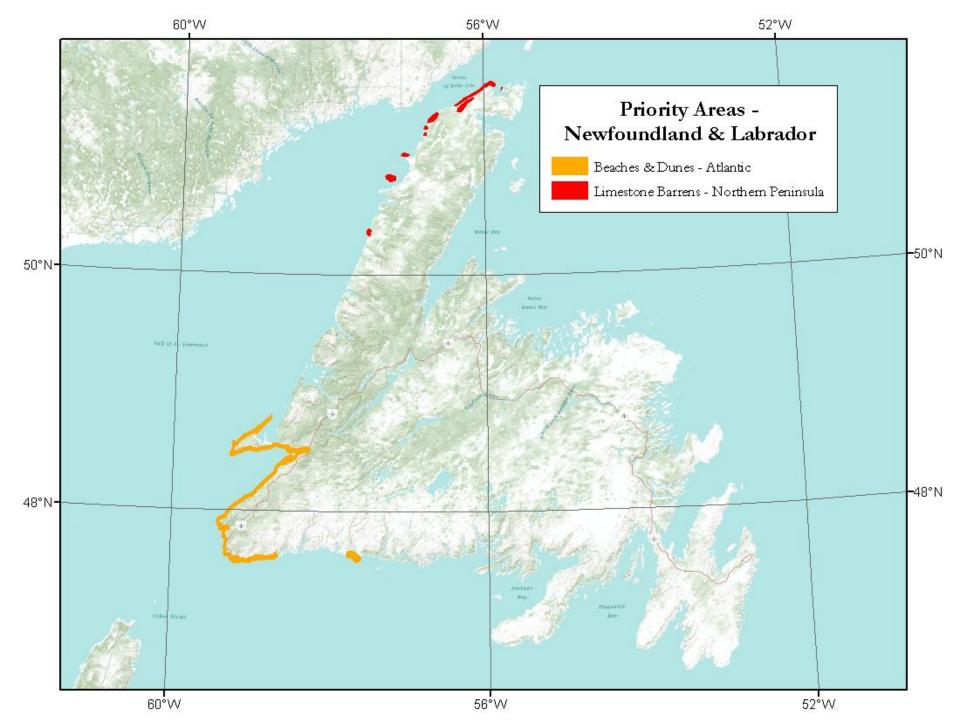

HSP Terrestrial Priority Areas (2011-2012)

- 1) Coastal Beaches and Dunes Atlantic Canada
- 2) High Elevation Forest Atlantic Canada
- 3) Limestone Barrens Newfoundland
- 4) Riverine and Riparian Saint John River, NB
- 5) Atlantic Coastal Plain Nova Scotia

HSP Terrestrial Priority Species (2011-2012)

- 1) Maritime Ringlet
- Woodland Caribou (Boreal population)
- American Marten (NL population)
- **Wood Turtle**
- Boreal Felt Lichen (Atlantic population)

HSP Aquatic Priority Threats (2011-2012)

- 1) Habitat alteration, degradation, fragmentation, or loss resulting from human activities.
- 2) Fishery interactions (commercial and recreational) including but not limited to: bycatch, entanglement, ghost fishing, and illegal fishing.
- 3) Invasive and introduced species.
- **4) Industrial interactions** including but not limited to: forestry, agriculture, shipping, tourism, oil and gas exploration and development.

HSP Aquatic Priority Species (2011-2012)

- 1) North Atlantic Right Whale
- 2) Leatherback Turtle
- Atlantic Salmon (Inner Bay of Fundy population)
- Wolffish (Northern and/or Spotted)

Aboriginal Funds for Species at Risk

Contact: Anne Benoît,

Regional Coordinator - AFSAR

What are the Aboriginal Funds for Species at Risk?

- Two funding programs to help ensure the engagement of Aboriginal peoples in the implementation of the Species at Risk Act
- These funding programs are:
 - Aboriginal Capacity Building Fund
 - Aboriginal Critical Habitat Protection Fund

What are the goals of AFSAR?

- 1) Support and promote the conservation and recovery of Species at Risk and their habitats
- 2) Support the engagement and cooperation of Aboriginal peoples in the recovery of Species at Risk, their habitats, and Species at Risk Act (SARA) processes

(Many aspects of the AFSAR programs are similar to HSP. Differences are highlighted in blue.)

AFSAR are national programs that are:

Managed cooperatively by 3 federal departments:

- Environment Canada (EC)*
- Department of Fisheries and Oceans (DFO)
- Parks Canada Agency (PCA)
- * EC leads the administration of the program

Delivered through 5 Regional Management Teams

(RMTs) that include representatives from:

- Each of the 3 federal departments
- Each province/territory
- Others

AFSAR are national programs that are:

Assisted by Regional Coordinators from Environment Canada and the Department of Fisheries and Oceans who support the RMT's

- Atlantic Region: Anne Benoît (EC)

"Directed" - projects are developed with partners in priority areas for priority Species at Risk

Dedicating ∼\$3.5M to stewardship projects each year

Issuing calls for proposals once per year (fall)

Expected Results:

- Strengthen capacity in Aboriginal communities for SARA implementation;
- Mitigate threats to species at risk individuals and/or populations;
- Protect critical and important habitat of species at risk and support their recovery;
- Help gather and conserve Aboriginal Traditional Knowledge (ATK) and Traditional Ecological Knowledge (TEK) on species at risk to support recovery objectives; and
- Support the implementation of additional priority activities identified in recovery strategies or action plans, where these are in place or under development.

Applying to AFSAR

Program Guidelines

Who can apply?

All Aboriginal communities and organizations

OR

 Partner organizations (Aboriginal or not) can submit a project on behalf of one or more Aboriginal communities or organizations if they have been **formally** mandated to do so.

What do we fund?

Aboriginal Capacity Building Fund

- ✓ Communications, outreach and education
- ✓ ATK / TEK
- ✓ Conservation planning and implementation
- ✓ Monitoring and data collection

Aboriginal Critical Habitat Protection Fund*

- ✓ Habitat improvement
- √ Habitat protection
- ✓ Conservation planning and implementation
- ✓ Monitoring and data collection
- ✓ ATK / TEK
- ✓ Communications, outreach and education

:nvironmei Canada

What do we fund?

*Aboriginal Critical Habitat Protection Fund

Specific to:

- 1) Reserves or lands set aside for Aboriginal people
- 2) Lands directly controlled by Aboriginal people
- Lands and waters where traditional activities are carried out

What do we fund?

- Activities MUST be linked to prescribed recovery actions identified in recovery strategies, action plans, and management plans.
- A minimum of 20% matching contributions from non-federal sources are required (more is better).

What we do NOT fund:

- X Research
- X Captive Breeding, Reintroductions, Aquaculture
- X Development of Recovery Strategies, Action Plans, and/or Identification of Critical Habitat (as required under SARA)
- X Activities associated with core Departmental mandates and obligations

Applying to AFSAR

Program Priorities

Applying to AFSAR: National Priorities 2011-12

For all Species at Risk (SAR) funding programs: (same as HSP)

- Endangered and Threatened species as listed under the <u>Species at Risk Act (SARA);</u>
- Protection of "critical habitat" (as defined by SARA);
- Implementation of high priority activities in recovery strategies, action plans or management plans;
- Projects that implement, or contribute to the implementation of, geographically-based large scale and multi-species recovery initiatives;
- Initiatives that involve collaboration among multiple stakeholders/partners.

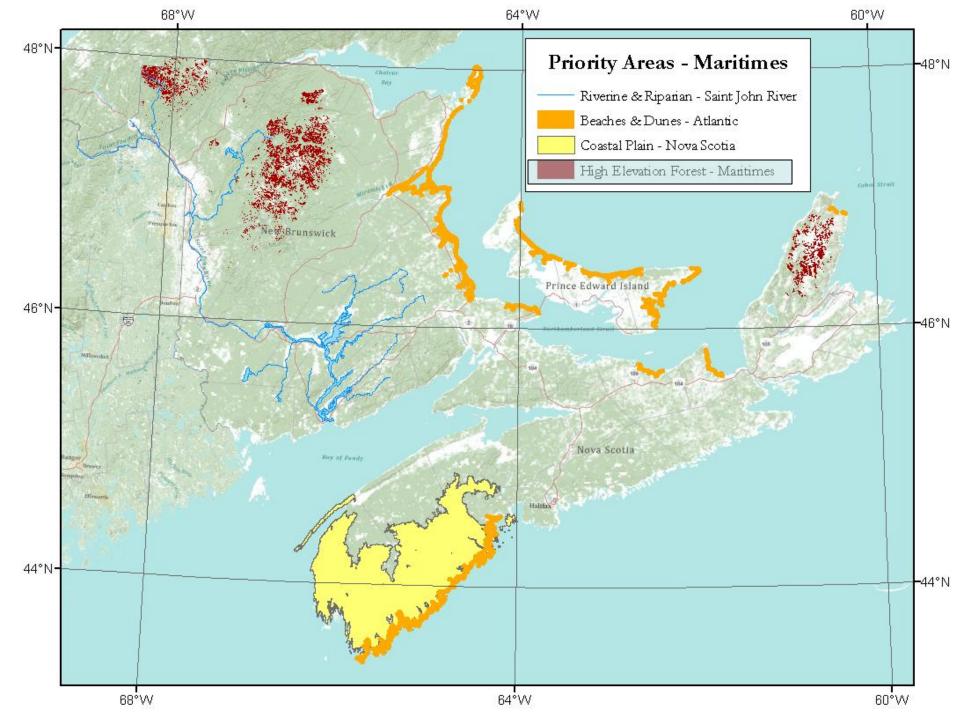

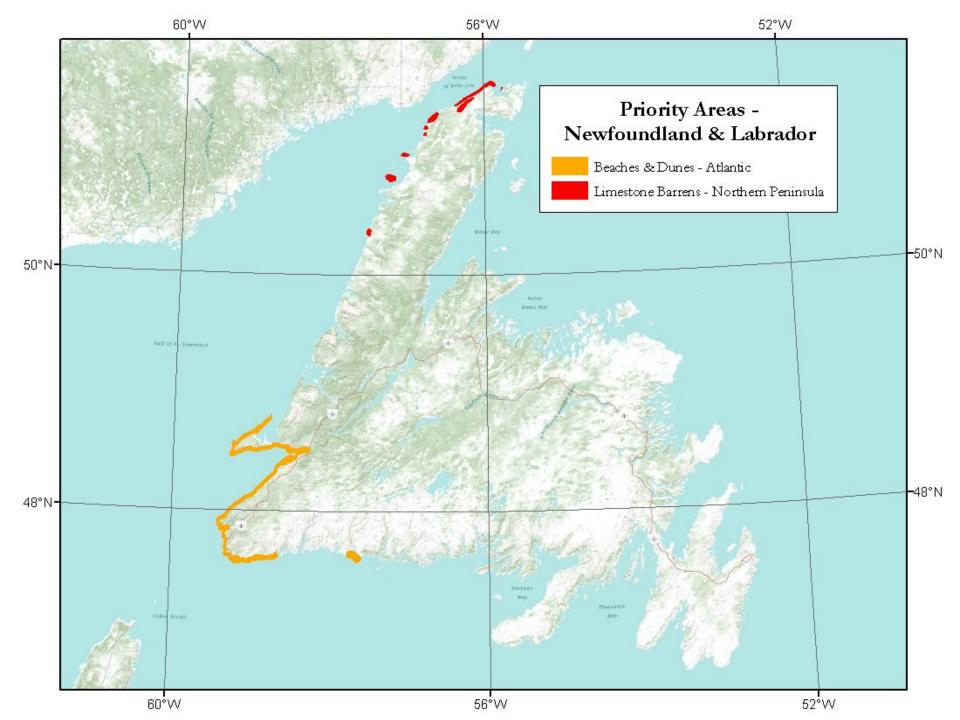

AFSAR Terrestrial Priority Areas (2011-2012)

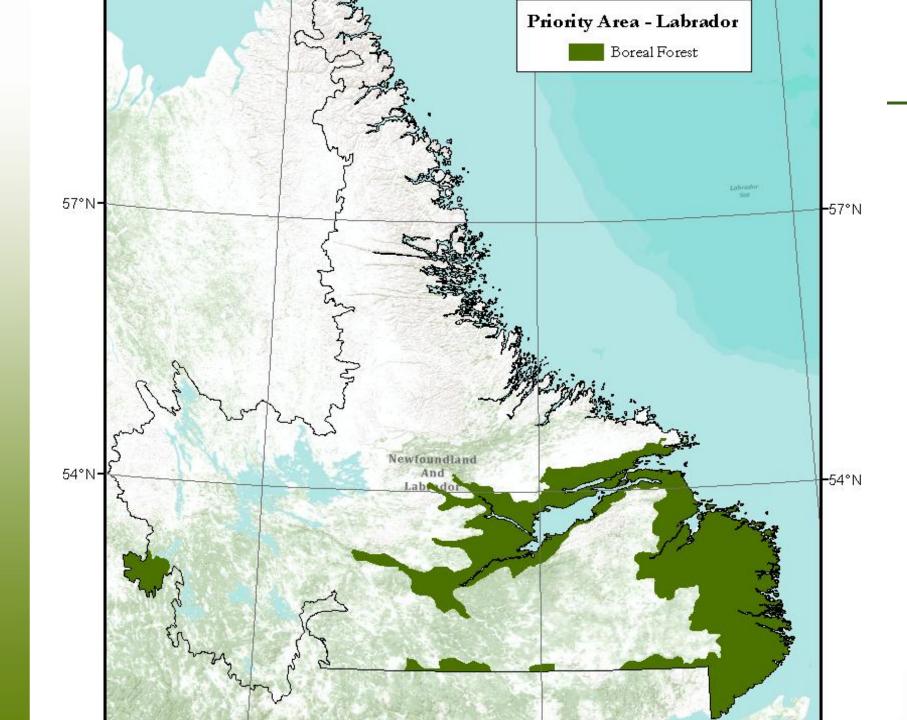

- 1) Coastal Beaches and Dunes Atlantic Canada
- 2) Boreal Forest Labrador
- 3) Limestone Barrens Newfoundland
- 4) Riverine and Riparian Saint John River, NB
- 5) Atlantic Coastal Plain Nova Scotia

AFSAR Terrestrial Priority Species (2011-2012)

- 1) Piping Plover
- 2) Woodland Caribou (Boreal population)
- 3) Ivory Gull
- 4) Atlantic Coastal Plain Flora
- 5) Butternut

AFSAR Aquatic Priority Threats (2011-2012)

(Same as HSP)

- 1) Habitat alteration, degradation, fragmentation, or loss resulting from human activities.
- 2) Fishery interactions (commercial and recreational) including but not limited to: bycatch, entanglement, ghost fishing, and illegal fishing.
- 3) Invasive and introduced species.
- **4) Industrial interactions** including but not limited to: forestry, agriculture, shipping, tourism, oil and gas exploration and development.

AFSAR Aquatic Priority Species (2011-2012)

- 1) Atlantic Cod
- 2) Leatherback Turtle
- 3) Atlantic Salmon (Inner Bay of Fundy population)
- 4) Striped Bass
- 5) American Eel

Applying to HSP & AFSAR

Process

Leatherback Sea Turtle

Process & Approximate Timeline

Process Stage	Timeline (2011-2012)
National Call Letter	October 1, 2010 (revised)
Regional Call Letter	October 8, 2010
Expression of Interest*	November 8, 2010
Comments to Applicants	As submitted**
Proposal Application Deadline (Online)*	November 24, 2010
Full Technical, Jurisdictional, and Program Reviews	
RIB/RMT Meeting	December 14-16, 2010
Regional Recommendations sent to Secretariat (NSC, DGs, ADMs, Minister)	January 21, 2011
Final Decisions and Notification of Applicants	April 1, 2011 (?)

Submitting a Successful SAR Proposal

Engaging Canadians in the Cost Effective Recovery of Species at Risk

Do Your Homework!

- > Read scientific literature, Recovery Strategies, Action Plans, status reports, etc.
- ➤ Talk with SAR biologists and the technical contact person well in advance of submitting a proposal
- > Talk with HSP or AFSAR Regional Coordinators
- ➤ Emphasize the links: project activities, PRIORITY recovery actions, recovery outcomes, and budget request

Submitting a Successful SAR Proposal

Engaging Canadians in the Cost Effective Recovery of Species at Risk

- Be CLEAR and CONCISE
 - ➤ ~15 page average (min/max)
- Submit a realistic budget
 - > Full Funding is available if warranted. (2010-11: HSP:\$7,500-\$350,000; AFSAR \$10,000-64,000)
 - Unrealistic budgets significantly weaken a proposal.
 The programs are competitive in nature.
 - Start early HSP & AFSAR require a significant time investment from all parties
